Liam Rodriguez - Application Support Analyst
Email: liam.rodriguez@example.com | GitHub: https://github.com/liam-support

Education
B.S. in Information Systems, Tech University, 2023

Skills
Oracle Database, SQL, PL/SQL, Linux, Unix, Shell Scripting, Troubleshooting, Technical Support, ITIL, Java, C

Experience
Application Support Analyst at Enterprise Solutions (2023 - Present)
- Administered mission-critical Oracle databases, tuned PL/SQL packages, and resolved SQL bottlenecks.
- Provided Tier-2/3 technical troubleshooting across production Unix and Linux environments.
- Developed automated Bash shell scripting routines for database health monitoring and ITIL incident triage.

Projects
Automated Server Health Monitor: Scripted proactive diagnostic tool in Bash and SQL.
Production Incident Tracker: Database log parser written in Java and PL/SQL.
