Marcus Vance - Systems & Cloud Infrastructure Engineer
Email: marcus.vance@example.com | GitHub: https://github.com/marcusvance-ops

Education
B.S. in Computer Systems Engineering, Metro Tech, 2022

Skills
Linux, Operating Systems, Computer Networks, Docker, Kubernetes, Distributed Systems, Python, Go, CI/CD,

Experience
Infrastructure & Systems Engineer at CloudCore Networks (2022 - Present)
- Architected high-availability Linux server infrastructure and tuned Linux kernel network parameters.
- Deployed microservices on Docker containers with automated CI/CD pipelines in Go and Python.
- Configured TCP/IP networking, DNS, load balancers, and distributed systems monitoring.

Projects
High-Throughput Distributed Cache: Implemented low-latency caching system in Go and Linux.
Infrastructure Automation Toolkit: Automated Linux provisioning scripts using Python.
